GDPR | FOI | CYBER

Since 2002

Act Now Training is Europe's leading provider of information governance training serving government organisations, local authorities, multi national corporations, financial institutions and corporate law firms.

Our associates have decades of information governance experience. We pride ourselves on delivering high quality training that is practical and makes the complex simple.

Our extensive programme ranges from short webinars and one day workshops through to higher level practitioner certificate courses delivered online or in the classroom.

“

The level of training received from Act Now is second to none. Knowledgeable trainers, excellent training materials and a syllabus which covers everything a budding DPO needs to know. Attending an Act Now training course is always a valuable experience and one I would recommend to anyone who wants to increase their knowledge around information rights and data protection legislation. Act Now are the best around!

MA, Lancaster University

Act Now workshops are always informative, useful, and professionally facilitated. The additional resources, including links provided during the sessions, are always especially useful, especially when you are completely new to the subject matter being presented.

DJF, The ICT Service

GDPR

“

A challenging and thought provoking way to enhance your knowledge of the UK GDPR and your analysis skills. The small group format does mean you have to participate (and complete the pre-work) but conversely it means you really learn, not just from the text but from the real life examples of other Privacy Professionals. I would certainly recommend it.

GR, People's Postcode Lottery

Brilliant training package for those who are new to GDPR and those who want a refresher. I, myself, only started in this role on the 28th June 2021 so am pretty new to Data Protection as a whole but the course broadened my knowledge a lot. Very interactive as well and interesting. Thanks to all.

GDPR Full Day Workshops

Our extensive GDPR programme ranges from beginner to expert level courses, focussing on developing the complete Data Protection Officer equipped with the most appropriate skills, knowledge and behaviours.

AI & Information Governance

Delve into the evolving realms of AI and Machine Learning, exploring their integration in the public and private sector. On this practical workshop, emphasis is placed on addressing contemporary AI challenges, with a focus on GDPR and other information governance issues such as records management.

The New Data Bill

This workshop will help you prepare for the changes to the UK data protection regime as set out in the Data (Use and Access) Bill (DUAB) which is currently going through Parliament.

Further details
actnow.org.uk/fulldaycourses

Children's Data

Understand the rules, legislation and code of practice around the use of children's data in a range of settings considering data use, risk management, rights and transparency.

Accountability & Conducting DP Audits

Learn how to use accountability to plan and execute successful data protection audits to support organisational improvement.

International Data Transfers

This practical workshop will guide you through the transfer mechanisms set out in part V of the UK GDPR and enable you to decide the best option for your transfers.

Data Flow Mapping

Explore the key concepts of data flow mapping, and how to develop and implement a data flow mapping process in your organisation.

The New EU AI Act

Understand the EU AI Act's requirements and the UK's strategy for AI regulation. This workshop will help you prepare for the future of AI regulation in the EU and other jurisdictions.

How to Share Personal Data

Explore data sharing agreements including the key fundamentals to consider with your partner organisations.

Law Enforcement Data Processing

A practical workshop explaining the key provisions of Part 3 of the DPA 2018 and comparing it with the UK GDPR.

How to do a DPIA

A practical guide to undertaking audits and Data Protection Impact Assessments in accordance with the UK GDPR and official guidance.

GDPR A-Z

A detailed examination of the UK GDPR together with associated legislation. This is our most popular GDPR workshop and is suitable for beginners.

GDPR Update

This advanced workshop examines the latest developments, cases and enforcement action from across Europe.

Handling SAR

A practical guide on how to deal with a Subject Access Request from receiving a request through to disclosure or refusal.

Data Ethics

Explore the growing importance of Data Ethics in the processing of personal data and the practical steps required to embed it within your organisation.

Controllers & Processors

Learn how to differentiate between these two roles and the associated responsibilities allowing you to confidently execute contracts.

How to Conduct Marketing

A practical guide on how to conduct marketing in compliance with GDPR and PECR.

Records Management

Learn how records management can help with GDPR compliance by examining best practice and procedures.

Managing Personal Data Breaches

Learn how to deal with data security incidents from a legal and practical perspective to minimise the impact on your organisation and end users.

How to be a SIRO

Understand accountability, responsibilities and risk management to manage information and assets.

Available Online
& in Classroom

Only **£449** plus vat

“

This training was excellent - the right balance of delivery and it was scenario based. One of the best courses I have been on and will thoroughly help me in my role - thanks!

RU, NHS Blood and Transplant

Lots of complex requirements all brought together in a clear, concise and practical way. Would highly recommend this course.

LP, Leeds Beckett University

”

UK GDPR Practitioner Certificate

The first step to becoming a complete Data Protection Officer.

This foundation level certificate equips DPOs with essential knowledge and practical skills to navigate the UK data protection landscape.

The revised course curriculum is based on a comprehensive analysis of the core skills and competencies required for the DPO role. Completing the GDPR Practitioner Certificate provides a thorough understanding of the UK GDPR, including new topics such as data ethics and the ICO Accountability Framework. The course develops skills such as practical interpretation of data protection principles, drafting privacy notices, undertaking DPIAs, and reporting data breaches.

Our teaching style is practical and engaging, with workshops and case studies to provide knowledge and skills that can be applied immediately. The curriculum allows delegates to map their personal learning journey and ensure they have the requisite level of knowledge and skills. Personal tutor support and access to an online resource lab help delegates maximise the benefits of the course and successfully complete the assessment.

Further details
actnow.org.uk/gdprcertificate

Course Structure

The course is set over four days, one day per week either online or in classroom. Each session is structured to enhance delegates' proficiency in understanding and applying the UK GDPR in a practical context, utilising case studies and exercises. Upon course completion, an assessment must be completed within thirty days.

This course has been updated for 2025 to reflect legislative changes and the latest ICO guidance.

Key Features

- 4 days of training with expert tutors
- Course developed specifically for DPOs
- One to one tutor support
- A comprehensive set of bound course materials
- Complimentary UK GDPR Handbook (RRP £59.99)
- Access to an online resource lab including 20 hours of revision videos
- 40 CPD Credits

DAY 1 The DP Framework & Principles

“

The GDPR Practitioner Certificate course was really excellent. The content was thorough, and tied in with real life situations to really embed the learning. It has really helped me in my role, even after the first week I had new practical skills I could use in my daily work life.

KL, Kent County Council

”

Intermediate Certificate in GDPR Practice

Level Up Your Data Protection Knowledge and Skills.

This intermediate level certificate strengthens the foundations established by our Practitioner certificate. Delegates will cover more challenging topics and gain a deeper awareness of the fundamental data protection principles.

The course was created after a thorough analysis of all the core skills and competencies required for the DPO role. It is part of our wider GDPR curriculum which has been designed to allow delegates to easily map their personal learning journey and ensure they have the requisite level of knowledge and skills for their role.

Our teaching style is based on practical and engaging workshops covering theory alongside hands-on application. Delegates will have personal tutor support throughout the course and access to a comprehensive online resource lab ensuring they have the best opportunity for success.

This course is a great option for established data protection practitioners who wish to level up their knowledge and sharpen their skills.

Further details

actnow.org.uk/intermediate-certificate-in-gdpr-practice

Course Structure

The course is conducted over three days, with one session every two weeks, available either online or in person. Each session is structured to enhance delegates' proficiency in understanding and applying the UK GDPR in a practical context, utilising case studies and exercises. Upon course completion, an assessment must be completed within thirty days.

Please note this is an intermediate course requiring a good level of knowledge of the UK GDPR. We recommend you complete the UK GDPR Practitioner Certificate (or equivalent) before booking this course.

Key Features

- 3 days of live training
- Examines all aspects of the UK DP regime
- Teaches essential DPO skills
- Complimentary UK GDPR Handbook
- Comprehensive learning materials
- Resource Lab including 20 hours of video - 12 months access
- 50 CPD Credits

Course Content

Principle 1 Deep Dive
Interpreting the Lawful Basis
Introduction to Data Ethics
Children's Data
Complex Subject Access Requests
Additional Data Subject Rights
AI and Profiling
Monitoring and Surveillance
DP Laws around the world
International Transfers
Marketing, GDPR and PECR
ICO Enforcement Powers
Auditing DP compliance

Skills

Interpreting Principle 1 (ICO and EU Enforcement cases)
Identifying ethical considerations
Integrating GDPR compliance into children's data
Assessing a complex SAR
Applying exemptions
Assessing additional data subjects' rights
Recognising DP implications of AI and profiling
Analysing surveillance activities
Identifying restricted international transfers
Completing standard contractual clauses and TIAs
Applying GDPR and PECR to marketing activities
Advising on ICO enforcement action
Conducting a DP Audit
Contrasting global DP laws

“

I highly recommend the Intermediate Certificate in GDPR Practice. The course content, structure, and pace were excellent. The trainer was extremely knowledgeable and engaging, providing the right balance of theory and practical examples. Additionally, having access to the comprehensive online resource lab was invaluable. Thank you!

HK, Talk Direct

”

Advanced Certificate in GDPR Practice

A higher level qualification for experienced Data Protection Officers.

The Advanced Certificate in GDPR Practice is designed for experienced Data Protection Officers seeking to refine and expand their DPO skills and expertise. The course comprises of a rigorous set of engaging masterclasses that teach you to dissect complex data protection scenarios and give practical compliance advice. This immersive experience will empower you with the skills and confidence needed to tackle the most challenging data protection projects within your organisation and to further your career.

- Induction Webinar
- **4 Masterclasses**
- Assessment

 Further details
actnow.org.uk/advancedcert

Course Structure

This course is set over four days; one masterclass every six weeks. The course will take eight months to complete. Delegates should expect to do at least 15 hours of self-study prior to each masterclass.

Our flexible, in-depth training sessions are designed to fit around your busy schedule while delivering maximum value. Each masterclass is focussed on specific areas of GDPR, so you can progress step-by-step, building on your knowledge as you go. The course combines interactive lectures, case studies, group discussions, and practical tasks that help you apply your learning immediately.

With access to expert instructors, you'll have the chance to ask questions, get feedback, and discuss the latest trends in GDPR enforcement. An assessment must be completed at the end of the course. The syllabus has been designed by leading GDPR practitioners to ensure that all the important aspects of GDPR and associated privacy legislation are covered.

Masterclass Structure

In each masterclass delegates will first analyse recent Tribunal decisions and/or ICO enforcement action to further their understanding of the complexities and nuances of the UK GDPR.

This will be followed by working through a multi-faceted case study in which they will consider and apply a number of aspects of the UK GDPR simultaneously. By not simply covering single issues in a linear fashion, this course will provide a holistic view of GDPR implementation. Participants will be challenged to think laterally allowing them to achieve a much higher level of knowledge depth and understanding.

Key Features

Teaches advanced GDPR knowledge and skills

Develop a deeper understanding of GDPR

Equips you with the skills to evaluate and analyse complex data-scenarios

4 Advanced Masterclasses

Online Resource Lab

UK GDPR Handbook

100 CPD Credits

A higher level qualification for experienced Data Protection Officers.

£3299 plus vat Classroom

This was an excellent course - from the moment the course materials arrived i was excited as I knew this was going to go to the next level and I wasn't disappointed. The content was very cleverly constructed to get us thinking and talking and the tutor knew just what to say to seek the answers out of us and explain everything in a way that was accessible and understandable. Thank you so much!

HR, Kent County Council

The Syllabus

Each masterclass will focus on recurring themes set out below. However, our focus is to equip you with the skills required to become a trusted advisor.

You will be able to confidently navigate your organisation through complex data protection issues, ensuring they remain fully compliant with evolving data protection laws.

The DP Principles
Personal Data Breach
Breach Notification
International Transfers
Lawfulness, Consent
and Legitimate Interests
Special Category Data
Transparency /Privacy Notices
Children
CCTV & Surveillance
Data Sharing
Data Subjects' Rights
ICO Powers
AI Risk Management
Enforcement Notices
Data Processors/Data Controllers
Criminal offences and civil liability
Liabilities and Compensation
PECR and Marketing
DPIAs
Cookies
DPO Role/Challenges

Complex Data Analysis

Learn to navigate and analyse intricate data processing scenarios with confidence.

Legal Acumen

Identify critical facts and relevant case law, ensuring informed and compliant decisions.

Practical Application

Master the ICO guidance to create effective compliance strategies tailored to your organisation mitigating costly penalties.

Effective Communication

Present your conclusions clearly and logically using pictorial representation, facilitating better decision making across teams.

Strategic Advising

Equip yourself with the skills to advise senior management on ICO enforcement actions and navigate potential liabilities as well as considering ethical implications.

Regulatory Insight

Analyse monetary penalties and enforcement notices, gaining insight into the ICO's enforcement powers.

Proactive Risk Management

Learn to confidently horizon scan and prepare for emerging IG challenges including AI risk, compliance and adoption.

Strategic Marketing Compliance

Understand the interplay between GDPR and PECR to create marketing strategies that protect your organisation.

Crisis Management

Develop skills to respond effectively to personal data breaches and advise on communication to those affected.

Investigative Understanding

Learn the ins and outs of ICO investigative powers, preparing you to handle inquiries with ease.

Timeline 32 Weeks Self-Study

Please note that this is an advanced course which will require at least 60 hours of self-study. There will be exercises and case studies to complete prior each masterclass.

Assessment

The assessment for this course consists of two parts. The first part requires you to submit a personal development plan about how your learning from the course will inform and improve your practice as a data protection practitioner. The second part requires you to draft an executive summary setting out the issues and recommendations in relation to the fictional case study discussed in masterclass 4. This summary will then be presented by you in an oral examination/aka Viva.

Resource Lab

Delegates have access for 12 months to an extensive bespoke online resource lab which enhances and consolidates each day's learning.

Skills Taught

Analysing complex data processing scenarios

Creating strategies for compliance

Assessing a complex and multi-faceted SAR

Designing a strategy for handling a personal data breach

Identifying key facts and caselaw

Assessing AI risks and challenges

Creating mind maps and process flows

Presenting conclusions clearly and logically

Distinguishing between GDPR, DPA and PECR

Identifying ethical considerations

Analysing MPNs, Enforcement Notices and Reprimands

Advising on ICO enforcement action

Our focus is to equip you with the skills required to become a trusted advisor.

Advanced Certificate in GDPR Practice

Apply Now

This is an advanced course with limited places. There is an application process through which you must demonstrate substantial GDPR implementation experience or show you have completed the Act Now Intermediate Certificate in GDPR Practice (or equivalent).

Further details
[actnow.org.uk/
advancedcert](https://actnow.org.uk/advancedcert)

“

I have attended many Act Now courses and seminars over the years and they continue to excel in both style and content. I would recommend the Advanced GDPR Certificate for anyone who wants to test their mettle and refamiliarise themselves with both the aspects and application of legislation which may not regularly arise in their normal working life.

NM, Cuckoo Hall Academies Trust

”

Information & Records Management Practitioner Certificate

The go-to certificate for Records Management professionals.

The Act Now Certificate in Information and Records Management equips you with practical skills to navigate the full Information and Records lifecycle. Our comprehensive syllabus, designed by leading Records Management specialists, covers everything from legal frameworks and terminology to data auditing, retention schedules, and digital preservation. Whether you are a Records Manager, Freedom of Information Officer or Data Protection Officer this practitioner level certificate will teach you the theory of records management alongside practical hands-on application. Personal tutor support is available throughout the course as well as a comprehensive set of learning materials.

 Further details
actnow.org.uk/records-management

Course Structure

This course is set over four days, one day per week either online or in classroom. Each day is designed to develop delegates' ability to understand and apply the RM legislation in a practical context using case studies and exercises. Upon course completion, an assessment must be completed within thirty days.

Key Features

- 4 days of training with expert tutors
- Practical Assessment
- One to one tutor support
- A comprehensive set of bound course materials
- 40 CPD Credits

DAY 1 Basics & Principles of RM

- Why we do Records Management?
- Basics of Records Management
- Basics of Information Management
- Defining a Record, Information and Data
- Key terms, Legal & Other Frameworks and Standards

DAY 2 Capture & Storage of Records

- Information/Records Lifecycle
- Data Audits & Process Mapping
- Methods of Records capture
- Document Management
- Designing File Plans
- Classification Schemes
- Record Owners

DAY 3 Retaining, Destroying & Preserving Records

- Retention Schedules
- Digital Preservation
- Archiving
- Deletion and Destruction
- Offsite Storage & Migration

DAY 4 Implementing an RM Programme

- Running an RM programme
- Risk Management
- Sustainability & Governance Frameworks
- Information Governance
- Information Asset Management
- Role of the Records Manager & Professional Standards

Equipping you with practical skills to navigate the full Information and Records lifecycle.

The DP and IG Practitioner Apprenticeship

Supercharge your learning with an Apprenticeship.

Act Now Training has teamed up with Damar Training to provide the materials and expertise underpinning the new Data Protection and Information Governance Practitioner Apprenticeship.

The apprenticeship will help develop the skills of those working in the increasingly important fields of data protection and information governance.

With the rapid advancement of technology, there is a huge amount of personal data being processed by organisations, which is the subject of important decisions affecting every aspect of people's lives. This poses significant legal and ethical challenges, as well as the risk of incurring considerable fines from regulators for non compliance.

This apprenticeship aims to develop individuals into confident data protection and information governance practitioners with the knowledge, skills and competencies to address these challenges.

The apprenticeship runs for around 18 months with start dates in September, January and May. Places are limited in each cohort, so book your place early.

About Damar

Damar Training has a 40-year legacy of successfully delivering professional and business apprenticeship training. Damar Training has worked with thousands of apprentices and many of the country's leading employers.

Modules

The UK Data Protection Regime
Data and Cyber Security
Handling Data Subjects' Rights Requests
Data Protection Policies and Procedures
Managing Data Protection Risk
The Freedom of Information Act 2000
The Environmental Information Regulations 2004
Records Management
Communication and Organisation Skills

150+

Successful Apprenticeships

“

I started with a good understanding of the UK Data Protection legislation but my knowledge has grown significantly, and now I'm coming to the end of my level 4 apprenticeship, I've gained so much more insight and my confidence has grown.

NL, University of Lincoln

”

Why Choose an Apprenticeship?

If you are looking to develop your skills, achieve a qualification and earn a salary at the same time, an apprenticeship may be the right choice for you.

An apprenticeship will develop your confidence and competence. It shows that you have achieved a nationally recognised standard for your area of work. It also shows your employer that you are committed to your job and that you want to develop your skills.

FOI

“

As someone who has only been working in an FOI-related role since last year, I found the course to be a really good way to consolidate and improve my knowledge. The tutor was friendly and knowledgeable, not to mention incredibly patient with all my exemptions-related questions. Thank you for providing a course specific to the different legal arrangements in Scotland.

EM, Abertay University

This course was well thought out and informative. It clearly covered all aspects of FOISA, and helped build on the knowledge I already had. The tutor was a fantastic mentor for the course and definitely made what can be dry subject matter very interesting. Highly recommend Act Now Training.

FOI Full Day Workshops

FOI and Personal Data

Examine the legal and practical issues that arise when dealing with requests for access to personal data under FOIA and EIR. This workshop provides a detailed examination of the relevant exemptions/exceptions and considers when they may be engaged. Acquire a better understanding of how to deal with requests for personal data; when it can be disclosed, or lawfully withheld, and how to justify a decision in a Refusal Notice.

FOI Update

In this advanced workshop we will analyse the latest FOI decisions from the Information Commissioner and the Tribunals as well as ICO enforcement action to draw out the key learnings to help you stay compliant. We will also horizon scan government pronouncements which could impact FOI and consequently your organisation.

EIR Exceptions

Understand what is required to support a decision to withhold environmental information and how to draft an EIR Refusal Notice accordingly. This advanced level workshop will provide a detailed examination of the EIR exceptions and how they operate in practice; how the courts and tribunals have interpreted the exceptions and how this informs their practical application.

The FOI Exemptions

Learn how to navigate one of the main legal and practical challenges that public authorities face on a daily basis; correctly identifying and applying the exemptions to disclosure under the FOIA. This interactive workshop focusses on the FOIA exemptions in Part 2 of the Act. Using case studies, recent cases and ICO guidance, we examine each exemption with particular emphasis on the most widely used exemptions and explore what makes a good Refusal Notice.

The FOI Act 2000

Gain a detailed overview of the main provisions of the FOIA with a particular focus on how to handle requests in a timely and effective manner. Learn which exemptions may be used to withhold information by completing practical case studies and exercises. This workshop is essential for all those working with FOIA to gain a good understanding of the Act.

Contracts and Commercial Confidentiality

Examine the legal and practical issues that arise when dealing with requests for access to contracts, tenders and commercially sensitive information. Understand the relevant exemptions/exceptions in the FOIA and the EIR and consider when they may be engaged. Gain a greater confidence in dealing with requests for commercial information; when it can lawfully withheld, and how to justify a decision in a Refusal Notice.

The Environmental Information Regulations

Explore the Environmental Information Regulations with a complete overview of how to handle requests under the EIR. This workshop considers the definition of environmental information in detail followed by an examination of the procedural aspects of dealing with EIR requests and the exceptions to disclosure.

Available Online
& in Classroom

Only **£449** plus vat

“

Eye-opening and engaging course. Very well facilitated - good engagement from participants with a perfect mixture of information-giving, group discussions, exercises with case-studies and opportunities to ask questions.

PJ, Environment Agency

Concise overview of the FOI Act with just the right balance of information. The course enabled me to feel confident in responding to requests and applying exemptions where appropriate. Useful course materials and experienced trainer - time very well spent.

LS, Sussex Community
NHS Foundation Trust

”

FOI Practitioner Certificate

An essential qualification designed for those wishing to acquire detailed knowledge of the FOIA and related legislation. The course will provide delegates with the knowledge and practical skills to enable them to become a more effective FOI Officer.

The content of the course has been developed after analysing all the competencies required for the FOI Officer role. Our teaching style is based on practical and engaging workshops covering theory alongside hands-on application using case studies that equip delegates with knowledge and skills that can be used immediately.

Personal tutor support throughout the course and a comprehensive online resource lab, ensure the best opportunity for success.

 Further details
actnow.org.uk/foi-certificate

Course Structure

This course is set over four days, one day per week either online or in classroom. Each day is designed to develop delegates' ability to understand and apply the FOI legislation in a practical context using case studies and exercises. Upon course completion, an assessment must be completed within thirty days.

Key Features

- Teaches essential FOI Officer skills
- Emphasis on practical application rather than rote learning
- Focus on case studies and exercises
- Open book assessment process
- Online resource lab with over 10 hours of video
- 40 CPD Credits

DAY 1 FOI A-Z

- Link with other Legislation
- Publication Schemes
- Datasets and ROPSI
- Right of Access
- Time limits, Fees etc.
- Enforcement

DAY 2 Exemptions 1

- Exemptions in Detail
- Latest ICO/Tribunal Caselaw
- The Public Interest
- Drafting Refusal Notices
- Internal Reviews
- Appeals

DAY 3 Exemptions 2

- Access to Contracts & Commercially Sensitive Information
- Law enforcement & Investigation Information
- Access to Personal Data
- Preparing for a Case at Tribunal

DAY 4 EIR

- Right of Access
- Proactive Dissemination
- Charging
- Exceptions and Refusals
- Latest ICO/Tribunal Decisions
- Being an FOI Officer
- FOI Officer Challenges

An essential qualification for the modern FOI Officer.

Available Online
& in Classroom

£2199 plus vat Online

“The FOI Practitioner Certificate is a thoroughly enjoyable course. The tutor was extremely experienced and encourages full participation. If like me you struggle with examinations, this is the course for you! It is very practical based and is useful to those new to FOIA and those with some experience.

MP, Dudley Clinical Commissioning Group

”

FOI Intermediate Certificate

Continue your journey to become an adept FOI practitioner by delving deeper into the intricacies of the Freedom of Information Act 2000, grasping its historical significance and acquiring the skills to navigate its complexities effectively with confidence.

This intermediate level certificate strengthens the foundations established by our FOI Practitioner Certificate.

Topics you will cover include interpreting information requests, navigating data repositories for relevant information, handling vexatious requests and applying the exemptions. You will learn how to draft clear, legally sound Refusal Notices and overcome challenges ensuring compliance with the FOI Act. You will enhance your FOI practice by analysing ICO decisions and Tribunal cases to learn how to interpret and apply exemptions while considering the public interest. This will ensure a balanced approach to your decision making. Personal tutor support throughout the course and a comprehensive online resource lab, ensure the best opportunity for success.

Further details
actnow.org.uk/foi-certificate

Course Structure

The course is conducted over three days, with one session every two weeks, available either online or in person. Each session is structured to enhance delegates' proficiency in understanding and applying the FOI legislation in a practical context, utilising case studies and exercises. Upon course completion, an assessment must be completed within thirty days.

This is an intermediate course requiring a good level of knowledge of FOI law. You must have completed the FOI Practitioner Certificate (or equivalent) before booking this course.

Key Features

- One session every two weeks
- Emphasis on practical application rather than rote learning
- Focus on case studies and exercises
- Online resource lab with over 10 hours of video
- 50 CPD Credits

FOI Officers Skills
FOI handling problems and solutions

Skills

Explaining the origins and context of the FOI Act
Understanding the limitations and potential areas for reform
Advising and assisting applicants
Interpreting ambiguous FOI requests
Understanding when information is held by a public authority

Interpreting and applying section 30, 31 and 36
Analysing requests for personal data
Handling commercially sensitive information requests
Handling requests for deceased person's data
Drafting and critiquing Refusal Notices

Interpreting and applying the EIR exceptions
Comparing FOI and EIR
Conducting an internal review
Explaining Tribunal Procedure
Comparing other FOI Laws

Level Up Your FOI Knowledge and Skills.

“

The FOI Practitioner Certificate is a thoroughly enjoyable course. The tutor was extremely experienced and encourages full participation. If like me you struggle with examinations, this is the course for you! It is very practical based and is useful to those new to FOIA and those with some experience.

FOISA Full Day Workshops

FOISA 2002

Gain a detailed overview of the main provisions of the Freedom of Information (Scotland) Act with a particular focus on how to handle requests in a timely and effective manner. Learn which exemptions may be used to withhold information by completing practical case studies and exercises.

FOISA Exemptions

Learn how to navigate one of the main legal and practical challenges that public authorities face on a daily basis; correctly identifying and applying the exemptions to disclosure under the Freedom of Information (Scotland) Act. Using case studies, recent cases and SIC guidance, we examine each exemption with particular emphasis on the most widely used exemptions and explore what makes a good Refusal Notice.

Environmental Information Regulations

This workshop considers the definition of environmental information in detail followed by an examination of the procedural aspects of dealing with EISR requests and the exceptions to disclosure.

Contracts and Commercial Confidentiality

Examine the legal and practical issues that arise when dealing with requests for access to commercially sensitive information. This workshop provides a detailed examination of relevant exemptions/exceptions in the FOISA and the EISR and considers when they may be engaged. Gain a greater confidence in dealing with requests for commercial information; when it can be lawfully withheld, and how to justify a decision in a Refusal Notice.

EIR Exceptions

Understand what is required to support a decision to withhold environmental information under the Environmental Information (Scotland) Regulations and how to draft a Refusal Notice accordingly. This advanced level workshop will provide a detailed examination of the EISR exceptions and how they operate in practice; how the courts and tribunals have interpreted the exceptions and how this informs their practical application.

“

The FOISA Exemptions course was presented very well. It was a good mix of examples and learning and the tutor introduced additional relevant information for us as the day progressed. I would recommend this course and will hopefully be able to attend FOISA: A-Z soon.

GB, Abertay University

As someone coming into this course with limited knowledge of FOISA, I found the course to be extremely informative, well paced and the amount I learnt over the four days was astounding. I would wholeheartedly recommend this course!

LR, Inverness College

”

FOISA Practitioner Certificate

This certificate course will provide delegates with the knowledge and practical skills to enable them to become a more effective FOISA Officer. The syllabus has been drafted in consultation with the Office of the Scottish Information Commissioner to ensure a comprehensive and well structured programme for those who work with FOI and EIRs in Scotland.

The syllabus has been developed after analysing all the competencies required for the FOISA Officer role. Our teaching style is based on practical and engaging workshops covering theory alongside hands-on application using case studies that equip delegates with knowledge and skills that can be used immediately.

Personal tutor support throughout the course and a comprehensive online resource lab, ensure the best opportunity for success.

 Further details
actnow.org.uk/foisa

Course Structure

This course is set over four days, one day per week either online or in classroom. Each day is designed to develop delegates' ability to understand and apply the FOI legislation in a practical context using case studies and exercises. Upon course completion, an assessment must be completed within thirty days.

Key Features

- Teaches essential FOI Officer skills
- Emphasis on practical application rather than rote learning
- Focus on case studies and exercises
- Open book assessment process
- Online resource lab with over 10 hours of video
- 40 CPD Credits

DAY 1 The Process

- What is Information?
- Dealing with Requests
- Finding Information
- Handling Complaints
- FOISA and EI(S)Rs Differences

DAY 2 Key Concepts

- Environmental Information
- The Public Interest Test
- Substantial Prejudice
- GDPR and Privacy
- Confidentiality

DAY 3 Exemptions 1 & Enforcement

- Absolute Exemptions
- EIR Exceptions
- Proactive Disclosure
- Publication Schemes
- The Commissioner

DAY 4 Exemptions 2 & RM

- Qualified Exemptions
- Records Management
- Copyright and Datasets
- Re-Use Regulations

An essential qualification for the modern FOISA Officer.

Available Online
& in Classroom

I particularly liked the structure of content which provided the historical and political detail, legal aspects of policy and regulation as well as what it means and is applied by us as part of our day-to-day jobs. Looking forward to the next part where we look at EI(S)R/FOISA exceptions and exemptions (that's something I didn't expect to be saying prior to doing this course!)

FR, Scottish Environment Protection Agency

Cyber/AI

“

The tutor was relative, informative, interactive and knowledgeable. He kept the course interesting and created debates/questions to allow us to think about the content. He was flexible and made time to support us with our own questions and had a proven in depth knowledge to support in the answers. I thoroughly enjoyed the course and this is mostly down to the way that it was presented and structured.

HA, EMH Group

The course was really useful, and all topics were backed up by relatable examples. The approach to learning and homework was invaluable, starting each day working through the assigned tasks helped to ensure I had a clear understanding of how to apply what I had learnt.

RIS, Coventry City of Culture Trust

”

Cyber/AI Full Day Workshops

Introduction to Cyber Security

This workshop will introduce the main concepts of cyber security, the benefits of good cyber security management and will explain how risk management is used as a means of determining priorities for action.

Cyber Security for DPOs

Most major GDPR breaches involve cyber security issues.

Data Protection Officers need a good knowledge of this subject. This broad, yet thorough, overview will enable you to engage and act on cyber security related issues with greater effectiveness and confidence.

Data Ethics and AI

Explore the growing importance of adopting an ethical approach when processing of personal data particularly when developing and implementing AI solutions.

This workshop will explain the practical steps required to embed data ethics within your organisation.

Managing Personal Data Breaches

Examine the law and best practice, drawing on real-life case studies, to identify how your organisation can deal with data security incidents and data breaches, in order to minimise the impact on customers and service users and mitigate reputational damage. This is an interactive workshop using exercises and group discussion to support real-world application.

How to Increase Cyber Security in your Organisation

By the end of this course, you will have a solid foundation of cyber security knowledge and skills that you can apply to your organisation. You will be able to assess your organisation's cyber security maturity and identify areas for improvement. This course is suitable for anyone who wants to learn more about cyber security and how to protect their organisation from cyber threats.

AI & Information Governance

Delve into the evolving realms of 'AI' and 'Machine Learning,' exploring their integration into both public and private sectors. Emphasis is placed on addressing contemporary challenges, with a focus on GDPR and other information governance and records management issues.

The New EU AI Act

Understand the EU AI Act's requirements and the UK's strategy for AI regulation. This workshop will help you prepare for the future of AI regulation in the EU and other jurisdictions.

”

AI Governance Practitioner Certificate

Driving Responsible AI Implementation.

As artificial intelligence (AI) continues to reshape the way we work, information governance professionals must stay ahead of the curve. Our new Practitioner Certificate in AI Governance is designed to equip you with the essential knowledge and skills to navigate this transformative technology while upholding the highest standards of data protection and information governance. In just six modules, this immersive course will empower you to understand AI's potential, address its challenges, and harness its power responsibly for public benefit.

This course is tailored specifically for those working in information governance and data protection, offering practical insights and actionable strategies to integrate AI in the workplace and beyond. From real-world case studies to the latest regulatory updates, you will gain a good understanding of how to manage AI ethically, securely, and in compliance with emerging laws.

Enrol on this course to future proof your organisation and position yourself as a forward-thinking leader who can bridge the gap between law, ethics, and technology.

Course Structure

This course comprises of six modules, delivered over four days. Every module is taught with practical case studies and exercises alongside comprehensive materials and an online resource lab. The course concludes with an online assessment which must be completed within thirty days.

Key Features

- 4 live sessions
- Examines all aspects of AI Governance
- Comprehensive learning materials
- Online Resource Lab with 12 months access
- Online assessment
- 30 CPD credits

Module 1

AI Foundations and Key Concepts

Explain AI concepts, including technologies, applications, and key milestones in its evolution.

Module 2

AI Risks, Consequences, and Ethical Considerations

Identify real-world examples of AI risks and demonstrate an understanding of their legal and ethical dimensions.

Module 3

Legal Challenges for AI Deployment

Overcome legal challenges including privacy, copyright, discrimination, product liability etc.

Module 4

UK AI Regulation and the EU AI Act

Examine the ever changing regulatory landscape and understand the implications for high-risk AI systems and compliance requirements.

Module 5

Privacy and Data Protection Implications of AI

Mitigate the privacy risks associated with AI deployment, with a focus on GDPR compliance and safeguarding personal data.

Module 6

Building AI Compliance Strategies

Propose ethical and compliance focused solutions to mitigate AI risks while balancing innovation and regulatory adherence.

Stay ahead of the AI curve.

“With the UK Government's plans to deploy AI to 'turbocharge' the economy and improve public services, coupled with the AI literacy provisions of the EU AI Act coming into force, it is now crucial for information professionals to master AI. This course provides delegates with a comprehensive understanding of AI, its opportunities, risks and the skills needed for lawful deployment.

Ibrahim Hasan, Course Director

”

Surveillance Full Day Workshops

RIPA and Covert Surveillance

The Regulation of Investigatory Powers Act 2000 (Part 2) governs the way the public sector undertakes Directed Surveillance, Intrusive Surveillance and deploys a Covert Human Intelligence Source. This workshop will examine these terms in detail as well as the authorisation process and related legislation, helping delegates prepare for an IPCO inspection and ensure compliance.

Conducting Pace Interviews

Master the skills to conduct effective and legally compliant interviews under the Police and Criminal Evidence Act (PACE). This workshop covers key principles, effective questioning, and maintaining procedural integrity to ensure admissible evidence, with expert guidance and interactive scenarios. Ideal for law enforcement and criminal justice professionals.

Acquisition of Comms Data

This workshop will explain the roles and processes for acquiring communications data. It is designed for law enforcement bodies and other public authorities who need to lawfully acquire and use communications data in criminal investigations.

Surveillance Cameras, Drones and the Law

Explore the legal and practical issues associated with all types of surveillance cameras including, the various legislative requirements, the Information Commissioner's code and the Surveillance Camera code. This workshop will help delegates form an action plan for compliance and avoid the attention of the regulators.

RIPA Essentials

An e-learning solution for local authority investigators.

Designed by leading RIPA experts, the RIPA Essentials will help you to build a RIPA compliance culture in your authority and satisfy the requirements of the of the Investigatory Powers Commissioner's Office (IPCO).

Find out more in our E-Learning Section.

An e-learning solution for local authority investigators.

All workshops can be delivered In-House and can also be tailored for the Scottish legislation (RIPSA).

“

Act Now are usually the first port of call for our information management training needs. The tutors are always very knowledgeable, helpful and make the training engaging. They are always at the forefront of arising matters in this sector too.

HM, Staffordshire County Council

From the many I have used, Act Now is the best training provider for IG courses

SB, Guys & St Thomas' NHS Trust

The course was very well thought out and presented by a knowledgeable and engaging tutor. I will most definitely be signing up to the Advanced Certificate in GDPR Practice next year to further my knowledge and development.

HH, Nucleus Financial

I have attended many Act Now webinars, and they have always been informative and useful. Their training sessions are invaluable for GDPR learning. I am currently undergoing an apprenticeship that works closely with Act Now Training, and it has been an essential part of my education in this field."

TH, Aquila

I have taken several courses with Act Now Training. Every course I have attended has been informative and enjoyable. The tutors are excellent and really engaging with the groups. I have found the courses invaluable in my work, and I have gained a great understanding of the various aspects of the FOIA.

WJH, Great Yarmouth Borough Council

The tutors knowledge, speaking pace, and engaging style made the session a delightful 4 hours. Appreciate the interactive nature of the course and the structure of the topics made it extremely easy to follow while remaining focused on the course material.

ND, DIFC Courts

Act Now Training provides excellent training courses for Data Protection Specialists. The Data Ethics Course was thought- provoking, well-structured, and well-presented.

actnow.org.uk/about

Trusted by organisations all over the world...

EUROPE | NORTH AMERICA | MENA | ASIA

“

Excellent course. What could have been a dry topic was transformed by excellent and engaging expert delivery and practical examples. Good length to get a good understanding of the whole area. I feel well prepared to take GDPR compliance forward with my company.

CT, Trident Trust Company, London

The course is extremely useful in explaining GDPR and other associated legislation and how they should be applied. Extremely valuable for anyone who is or is due to become a Data Protection Officer or anyone who supports that role.

NH, Office for Nuclear Regulation

Thank you for a really helpful and practical course. It was pitched at just the right level for me, and I feel much more confident in my role as DPO as a result.

BS, Marie Curie, London

This was an excellent session and really helpful. The Course tutor was really engaging and helped make a difficult topic easy to understand.

City of London Corporation

Kirsty was fantastic - not only an engaging teacher but also incredibly knowledgeable and insightful.

UK Parliament

Very useful, insightful course that provided hands on practical tips on GDPR implementation within our business.

AD, Danske Bank, Denmark

I highly recommend Act Now Training. The speaker presented a relatively heavy topic in a highly interesting manner. As someone who had previously read the Regulation multiple times, I guarantee that this course will still provide you with considerable added value.

SS, Trident Trust Company Limited, Spain

The tutor engaged with the course attendants to ensure they are aware of the details that may be most relevant to each organisation.

Cabinet Office

An eye-opening course... I am glad I attended this course.

Ministry of Home Affairs, Dubai

Good and interactive explanation/briefing on the Data Protection Policy. An inspiring workshop. The presenter was well understood, friendly and approachable. The experienced tutor and facilitator provided me with clear knowledge and awareness of Data Protection. I'm truly grateful for this experience.

Public Services Department, Brunei

The tutor was very knowledgeable and engaging.

BBC

It is quite difficult to find a good training provider but I can happily say Act Now and the trainer did a really good job to make me want to recommend them to anyone I know. As a beginner in the Data Protection field, the GDPR Practitioner certificate course was the right balance between overall guidance and detailed information presented in an easy and understandable format. Having the course over 4 weeks was very good to be able to study in between, and think about questions or specific cases to people's various environment.
